Task1

## Scenario1:

- When open Amazon Sometimes I got this page, so I made implicit wait (10 Sec) and Skip it Manually

Scenario 2:

- In today's deals I can only select one filter category option ["Headphones" OR "grocery"] so I select grocery only in this scenario.
-
- After filtration and got the page of products but I can't find pagination in the page, so I select the fourth product without going to fourth page.

Task2

- I can't find any popular routes but i found Popular Destination from Bengaluru, so I select destination is CHIKKAMAGALURU
